SARCN-CO

SUBJECT: Letter of Commendation

Lieutenant Robert J. Brown  
Activity Civil Engineer  
Public Works Department  
Naval Weapons Support Center  
Crane, Indiana 47522

On the occasion of your departure from the Public Works Department (PW) of the Naval Weapons Support Center Crane, I wish to personally commend you for your outstanding performance of duty while serving as the Activity Civil Engineer for the Crane Army Ammunition Activity. In this role, you were responsible for coordinating over 200 workyears of effort and approximately \$15M annually, which accounted for approximately 40 percent of the total PW effort.

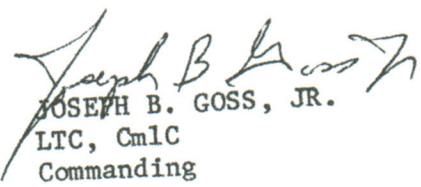

In all respects, your performance of duty has been singularly outstanding. Your initiative, aggressiveness and concerned leadership was instrumental in seeing that production lines never had to be shut down due to a lack of PW support. Supervisors throughout this Command knew Bob Brown could be relied on to get the job done. You seldom let them down. As an engineer, your advice was actually sought and earned you the respect and admiration of everyone who worked with you.

In addition to your contributions noted above, and countless others pertaining to every facet of Public Work support, your most important contribution has been the invaluable assistance you rendered to me as Commanding Officer. Your professional competence, astute judgement, reliability and meticulous staff work kept me up-to-date at all times, and was the basis for many important decisions. I could always count on you accomplishing your mission which directly impacted the combat readiness of our fellow soldiers and sailors. You helped in seeing that they got the best ammunition in the world.

It has been a privilege to have your loyalty and support, and I wish you continued success in your future endeavors.

A copy of this letter will be placed in your official personnel records.
